

Invitation

HIV & Mental health

Online workshop – 13, 20 and 27 January 2021

EATG invites you to an online workshop bringing together community and healthcare professionals to review how mental health issues affect People Living with HIV (PLHIV) and discuss promising interventions in community and healthcare settings. The meeting is part of the [HIV & Mental health project](#), that aims to explore the existing knowledge about the interplay of mental health, well-being and HIV and translate it into practical recommendations for both community organisations and healthcare professionals in the European context.

The workshop will start with a webinar presenting the results of EATG research on HIV and mental health conducted from March to December 2020. The webinar will be followed by the two interactive online meetings that will bring together PLHIV and/or working in HIV community-based organisations, as well as health care professionals, to enable a dialogue between those sectors and elaborate recommendations on how to develop a supportive and integrated framework within the HIV care setting.

➤ Agenda

Part I - Webinar: Presentation of the desk research findings			
13/01/21	12:00 – 12:05	Presentation of the project and introduction - <i>Mario Cascio, EATG Quality of Life Programme Chair</i>	Registration link: https://zoom.us/webinar/register/WN_TsF8ljyKSTqecBiJJ1Jh6A

➤ Registration

As the number of places is limited, participants with the following background will be prioritised:

- Having field experience in the HIV and/or mental health sectors
- Being part of an HIV community organisation in Europe or Central Asia
- Being part of an organisation that provides mental health related services to people living with HIV
